

INFRASTRUCTURE

The institute is spread over an area of Ac 5.040 decimal at Mouza Rathipur, P.O.- Kantia, P.S. - Jatni, Khordha having all prerequisites to cater to the need of its students.

Our institution is equipped with modern infrastructure designed to provide an excellent academic and learning environment for students, faculty, and staff.

The campus features a spacious G+2 academic building with a total built-up area of 50,000 sq. ft., providing ample space for classrooms, laboratories, administrative offices, seminar halls, and student activity areas. The campus is complemented by an extensive 60,000 sq. ft. parking area, ensuring convenient parking facilities for students, faculty, visitors, and institutional vehicles.

To support technology-enabled learning, the institution maintains 250 desktop computers connected through a robust Local Area Network (LAN) infrastructure, facilitating seamless access to digital resources and online learning platforms.

Reliable power supply is ensured through a 100 KVA Online UPS system, which provides uninterrupted power backup for critical academic and IT operations. In addition, a 125 KVA Diesel Generator (DG) set is available to guarantee continuous functioning during power outages. The campus power distribution is further supported by a dedicated 100 KVA transformer.

The institution places high importance on safety, security, and communication. A comprehensive CCTV surveillance system has been installed across the campus to ensure a secure learning environment. An integrated audio system supports academic events, seminars, conferences, and various campus activities.

INFRASTRUCTURE OF ACADEMICS:

The institution is equipped with modern classrooms, a well-stocked library, computer laboratories with internet connectivity, seminar and conference facilities, faculty workspaces, student support services, and other essential academic and administrative infrastructure required for effective delivery of the BBA programme. The campus provides a conducive environment for learning, skill development, and holistic growth of students.
